3220L 32" LCD Desktop/Wall-Mount Touchmonitor

Wide-aspect, high resolution LCD Touchmonitor delivers brilliant performance

The 3220L touchmonitor provides a wide viewing angle similar to the 2020L and is especially well suited for industrial and government applications or interactive digital signage, as well as applications requiring a larger format for enclosed or light restricted areas. For added convenience it can be mounted in portrait mode.

The 3220L is available with IntelliTouch surface wave technology. CarrollTouch infrared technology is also available for special applications.

Features

- ■ Available with IntelliTouch surface wave technology and USB or serial interface

- ■ High quality panel with 178° total viewing angle

- ■ Built-in USB ports for peripherals

- ■ Ergonomic four-way adjustable (height, pivot, tilt and swivel) stand

- ■ PVA technology for wider viewing angles and higher brightness and contrast

- ■ Desktop stand can be removed or reversed for wall mounting option

- ■ VESA mounting option

- ■ Sealed touchscreen

- ■ Digital, multilingual on-screen display (OSD)
