

SUR40

Samsung SUR40 for Microsoft® Surface®

Bringing an entirely new dimension of interactivity to the table.

Powerful Computing on Display

This Samsung 40" Full HD 1080p multi-touch PC takes computing to a new level. The Windows® 7 operating system delivers power, reliability and manageability. The AMD-powered CPU and GPU provide high performance.

Multi-Touch and Multi-User

SUR40 uses PixelSense™ technology to see and respond to touch and objects with optical tags. It recognizes and reacts to more than 50 points of contact simultaneously, letting several people use the SUR40 at one time.

Horizontal or Vertical

At just 4" thin, the Samsung SUR40 can be used as a table, mounted to a wall, or built into a custom fixture.

Connectivity

Content is virtually limitless with four USB ports, HDMI, Wi-Fi, Ethernet and Bluetooth connectivity.

Bing™ for Microsoft Surface

The pre-installed application allows multiple users to search and explore images, maps and information. Customize the Bing experience to use objects with optical tags to take users directly to desired content.

Software Applications

Customize the SUR40 experience by engaging a Surface development partner or create applications using the free Microsoft Surface 2.0 Software Development Kit (SDK). Visit www.surface.com.

Samsung and Microsoft have teamed up to bring you the most advanced way to reach your audience. Whether you're in education, finance, healthcare, retail or any other profession, the Samsung SUR40 for Microsoft Surface will change the way your students, office or customers interact. The 360-degree interface lets a group of people use the SUR40 simultaneously for heightened collaboration and connection. And PixelSense™ technology enables the SUR40 to recognize multiple, simultaneous touches and tagged objects. Using applications developed to meet your specifications, you can deliver impactful experiences, including delivering information people can take away using mobile devices. It's an entirely new level of interactivity. It's an entirely new level of thinking. **Business. Innovated.**
