# TRANSPARENT HYPEBOX RENTAL
Product + Content All-in-One

Stun the audience at your next event by bringing your product to life! An integrated transparent LCD screen solution which enables the user to see a real product at the same time as viewing digital content on the screen.

USB Playback

Play automatically from USB Stick (looped playback). Pictures and video formats like .MP4, .MPG, .AVI and .MOV are supported.

Incredible Transparency

The high and clear transparency turns this product into an incredible tool for any store, tradeshow or event.
