

# ASUS ROG SWIFT PG279Q GAMING MONITOR

**27" 2K WQHD (2560 x 1440) IPS, overclockable 165Hz, G-SYNC™**

- 27-inch, WQHD 2560 x 1440 resolution display feature IPS technology for wide 178-degree viewing angles and lifelike gaming visuals
- World-first 165Hz refresh rate and NVIDIA® G-SYNC™ technology for seamless visuals and smooth gameplay
- ASUS-exclusive Ultra-Low Blue Light, Flicker-Free, GamePlus, and GameVisual technologies provide a comfortable gaming experience
- Ergonomically-designed stand with full tilt, swivel, pivot, and height adjustment for comfortable viewing position

ROG Swift PG279Q gaming monitor is built for victory in the professional gaming arena, and features a WQHD IPS panel with a 165Hz refresh rate. Integrated NVIDIA® G-SYNC™ technology synchronizes the display's refresh rate to the GPU for smooth visuals and lag-free gameplay. This monitor features the latest technologies and design touches to make it a must-have weapon for all enthusiast players.

## Impeccably lifelike gaming visuals

**A 27-inch 2K/WQHD display for highly detailed visuals and more onscreen space**

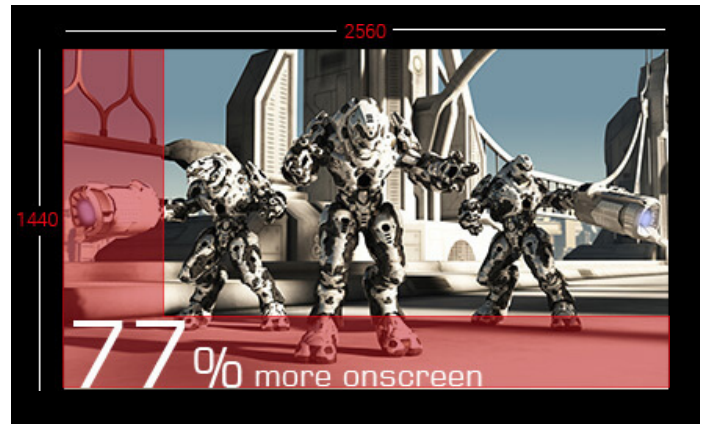

The ROG Swift PG279Q represents a new generation displays, with a WQHD 2560 x 1440 panel that delivers four times the resolution of 720p and 109 pixels per inch. You get to enjoy greater image detail and up to 77% more onscreen desktop space than standard Full HD (1920 x 1080) displays. These add up to give you a major in-game advantage.

### Conventional 27-inch 1920 x 1080 monitor

Shows less detail and spacing with less room for work bars on the side. Images are relatively blurrier.

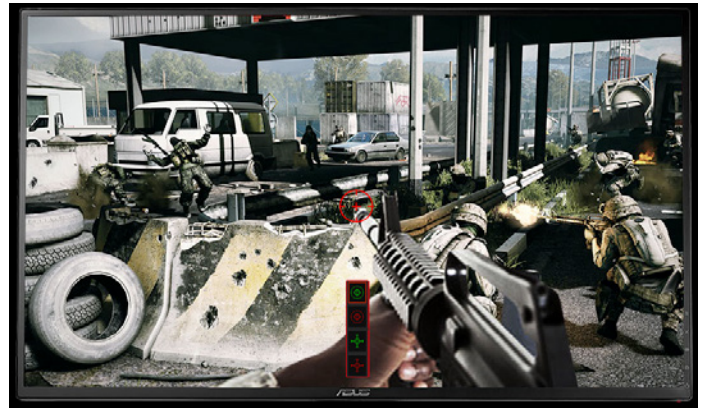

### ROG Swift PG279Q 27-inch 2560 x 1440 monitor

See more detail and spacing with more room for working bars on the side. Images are much more crisp and detailed.

## Gamer-centric features

### ASUS-exclusive GamePlus technology

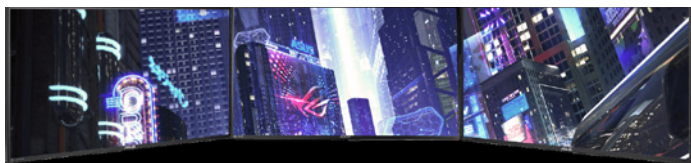

ROG Swift PG279Q gaming monitor features the ASUS-exclusive GamePlus hotkey for in-game enhancements so you get more out of your game. The crosshair overlay gives you four different crosshair options to suit the game you're playing. There's also an onscreen timer you can position on the left of the display so you can keep track of the elapsed gaming time; while the FPS (frames per second) counter lets you know how smooth the game is running.

## Multi-display gaming at its finest

### Super-narrow bezel design for seamless multi-display setups

The ROG Swift PG279Q's slim profile and super-narrow 6mm bezel makes it perfect for almost seamless multi-display setups so your eyes move swiftly from one monitor to another. It can also be VESA wall-mounted – an even easier way to have a multi-display gaming setup.

### Robust connectivity with 2-watt speakers

The ROG Swift PG279Q has a wide selection of connectivity options for WQHD input including DisplayPort 1.2 and HDMI ports. ROG Swift PG279Q also has two USB 3.0 ports to quick-charge your mobile devices while gaming; it can even be used as an alternative high-speed signal input port.

### Smart cable management

A cable management design feature found on the back of the monitor allows you to organize and hide your cables to keep your gaming area tidy.
